NEW BRUNSWICK

New Brunswick has a world-wide reputation as a consistent supplier of high quality virus-tested seed potatoes. This reputation has been achieved through the co-ordinated efforts of growers, industry representatives, Provincial and Federal Governments.

The Potato Disease Eradication Act provides the legislative authority to eradicate named potato diseases from the Province. **All potato production, including home gardens**, must be grown from Certified or higher class seed. Inspection of growers' premises and disinfection of storage and equipment may be required to assure disease eradication.

SEED POTATO CERTIFICATION IN CANADA

The Plant Health Directorate of the Canadian Food Inspection Agency is responsible for inspection and certification of seed potatoes in Canada. Certification begins with pathogen tested plantlets which are used to produce greenhouse tubers. Greenhouse tubers produce the first field generation which is called Pre-Elite. Seed may be certified for maximum of seven field generations.
